PHONE	Email for details
ADDRESS	Email for details

OBJECTIVE

To apply my knowledge of multimedia, furthered with my acquisition of a Bachelor majoring in Interactive Entertainment, to a position on the arts and design or PR team of a major design studio or gaming company.

I am also very interested in photography and creating abstract images, although that is more of a hobby at this moment.

SUMMARY OF QUALIFICATIONS

I am proficient at a number of design and game development softwares, such as Autodesk 3DS Max, Adobe Photoshop, Solidworks, Audacity and Unity. I am also able to work with Sculptris, Sketchup, Titanium, After Effects and the Unreal Development Kit.

I have worked with Java quite often during my studies, and have an intermediate knowledge of Javascript, HTML, CSS, Actionscript and the basics of C++.

EDUCATION

- Recently completed a Bachelor of Multimedia with a major in Interactive Entertainment and Games Programming at Griffith University, Gold Coast Campus, Queensland. (July 2015)

- Achieved an award for being in the top 5% of students in the campus for my chosen degree in the first year.
- During the second year, I was invited to the Golden Key club.
- Completed Year 12 at Immanuel College, Adelaide, South Australia.
- Completed multiple training courses involving food and hospitality during my employment at Club Helensvale.

WORK EXPERIENCE

Temporary worker at Kranz International College of Nursing (Careers Australia College of Healthcare)

- June 2009 to July 2009
- Level 1, 22 Pulteney Street, Adelaide, South Australia
- Completed office tasks such as filing and data entry.
- Used basic forms of databasing.

Bartender and gaming service provider at Club Helensvale

- June 2012 to Present (2015)
- 20-22 Discovery Drive, Helensvale, Gold Coast, Queensland
- Worked as a floor member before moving to the bar.
- Attained skills in hospitality, working with people, drinks, food and gaming (betting, gambling).
- Improved skill in communication between customers, managers and co-workers. Worked very well in a team environment where tasks would be split between a group of people.

PERSONAL QUALITIES

I am generally an extremely comfortable person to be around. I am an extrovert and am most likely to come up to someone new I am working with and introduce myself. I am known within my work area to be someone to come to for help and inclusiveness. This helps with group situations and teamwork in a very positive way. I can work solidly and efficiently on my own once given a task, however. I am punctual, honest, hard-working, organised and have a wide knowledge and understanding of different cultures (after growing up in Singapore). I also speak two languages: English and Mandarin, though the latter could do with some revision.
